Enhancing the level of social inclusion of Youth migrants and refugees, co-designing policies through the setting up of consultative bodies at local and European level

Project ID: 101037962

Start: January 2022

Finish: January 2024

Funded by the Asylum, Migration and Integration Fund (AMIF) of the European Union

ABOUT THE PROJECT

The project aims to support the setting up of consultative bodies of youth migrants at local and EU level in close cooperation with public authorities, aiming at involving youth migrants and refugees in active political life, co-designing policies addressed to migrants and refugees. Creating a system of European and local consultative bodies involving migrants and refugees in designing policies is the main outcome of the project, that will take into account the different frameworks of legislations of the different member States involved in the project, based on a multi-stakeholder approach promoted by a partnership composed by NGO expert in training and education, Universities, Municipalities and governmental LA. The active participation of migrants in consultative and decision-making processes can contribute to their empowerment and long-term integration into society for a mutual and better understanding and improvement of the policy framework in each country.

IMPACT

General objective is the active participation of migrants in consultative/decision-making processes that contributes to their empowerment/long-term integration. Their involvement enhances the cultural background/skills of migrants and facilitates social inclusion in EU context and in terms of active EU citizenship. The participative approach in EU/local consultative bodies involving migrants and refugees must lead to designing policies, that will take into account the different frameworks of legislations of the different member States involved in the project. In the long term this leads to:

1. Empowerment of young migrants to more actively participate in changing opinions.
2. Raised awareness by the general public's knowledge on integration issues and sensitivity to the well-being of all their fellow residents.
3. Enhanced capacity/ exchange of experiences for public authorities for efficiently consulting/involving migrants
